## **Our Organisation**

We are Manchester Students' Union, the biggest SU in the country, supporting over 40,000 students throughout their time at university. We help to make student life the best it can be by supporting students to campaign for change, creating opportunities to meet new people, providing employment opportunities, providing advice and support and being a safe place on campus.

We are a values-centred organisation that employs around 90 permanent, full-time members of staff. We recruit a wide range of roles throughout the year within all our departments from our Commercial team operating Manchester Academy Venues, 13 Media, Bar 532 & Kitchen and Corridor Coffee to our Student Activities, Student Engagement, Marketing and Communications, Finance, HR and Facilities teams. Our team of around 400 part-time, studying staff are instrumental in providing to support to all departments as well as leading major projects like Student Angels. When you join UMSU, you'll be immersed in an environment that empowers staff to make great things happen and we're always on the lookout for innovative, passionate, and proactive people to join us.

Our staff team is led by our senior leadership team who are instrumental in driving our strategy at UMSU. It's made up of our CEO, COO, 3 Directors and 2 Associate Directors. We are governed by our trustees and Exec Officers, you can find out more about that <a href="here">here</a>. All our permanent, full-time roles are graded (Grade A-E) which means that there is a clear path to your development and progression whilst at UMSU.

## **Our Organisational Values**

Our values are really important to us and shape the work that we do every day. As part of our recruitment process, we want you to demonstrate how your experiences, behaviours and skills align with our values.

#### Our values are

- We put students at the heart of what we do
- We provide a 'great experience' service

- We believe in improvement and progression
- We are a community
- We are open and transparent
- We are inclusive

You can find more detailed explanations of our values on our website.

## **Role Overview**

This role will play a key part in the development and delivery of *Research Quest* – a gamified concept designed to reward students with points for completing surveys. By making survey participation more engaging and rewarding, this initiative directly supports the organisation's aim to increase student engagement with feedback mechanisms, ensuring the student voice is central to the decision-making process at the University.

Sitting within the **Digital and Data Team**, this role contributes to the team's wider mission of creating seamless, engaging digital experiences for students and staff. By building a user-focused system that makes giving feedback both fun and worthwhile, the role helps strengthen the credibility of the Students' Union and provides a scalable model for encouraging participation across other projects. We have a Digital student developer in the team, and you would be working with them to build on the project. This work most closely aligns with our values of **transparency**, **putting students at the heart of what we do**, and **community building**. It ensures students see the tangible benefits of sharing their views, places their experience at the core of our digital approach, and fosters a sense of shared ownership in how the University evolves.

## **Key Result Areas**

The overall aim and performance we expect to achieve would be for the complete development of Research Quest by end of September/October and maintenance until December 2025.

Responsible for	Contributor to			
Frontend Development: Build and maintain	Gamification System Implementation:			
user-facing interfaces for the Research Quest	Contribute ideas and code for gamification			
Hub, ensuring responsive design and usability.	features enhancing user engagement.			
Backend Development: Develop APIs, data	Performance Monitoring & Optimization:			
models, and server-side logic for platform	Contribute to monitoring systems and			
functionality.	performance tuning efforts.			
System Integration: Implement integrations with	Cross-Functional Collaboration: Collaborate			
SSO, survey platforms, and external reward	with UX designers, researchers, and			
systems.	stakeholders for feature planning and delivery.			
Security & Data Protection: Implement robust				
security measures and ensure GDPR				
compliance.

## **Our Recruitment Process**

The way that we recruit is designed to be fair, transparent, and inclusive as well as being an enjoyable experience for everyone involved. You should expect to receive great communication and a warm, welcoming experience.

Every member of staff is recruited the same way, by submitting an application form and attending an interview. We use a recruitment platform called StaffSavvy where you'll submit your application and book interviews, if successful.

Our process allows you to show us your authentic self, gives you a platform to display your skills and knowledge in relaxed and welcoming setting. We'll never put you under any necessary pressure on you, ask you trick questions or interrogate you in an interview and we'll support you all the way through our process.

You can find more information about our recruitment process on our website.
